

SKIN BEAUTIFUL DERMACEUTICALS

*The Science Behind Dermal Nutrition Antioxidant (DNA) Repair Cream*

Dermal Nutrition Antioxidant (DNA) Repair Cream helps prevent the senescence of cells, enhancing cell function, improving the quality of the tissue, and extending the youth span of the skin to reduce all visible signs of aging – not just wrinkles.

Before

After

Within just a few weeks of treatment:

- Sun spots and skin moisture improved in 100% of the panelists
- Redness and pore size reduced in over 90% of the panelists
- Skin roughness, fine lines and barrier function improved in at least 75% of the panelists
- Skin firmness, tone and elasticity increased in 75% of the panelists.
